I need your help

G

I need your help

Breathe down breath of God

Breathe into these streets and bodies half asleep

Breathe into our hearts

Breathe into our hearts

Em C G F#/D

Rise up people of God

Em C G F#/D

Into the morning light

Em C G F#/D C

With the hope of love and the promise of new life

Rain down heaven above

Flood the gutters of this town with your grace

Rain on all of us

Rain on all of us

Lord, hear the cries of your people

Lord, hear the cries

Lord, hear the cries of your people

And descend to us again (repeat)

Rise, O sun, arise

Bring the wild hope again to fill our souls

Help us to believe

To see and believe
